

DIA'S EB14.001 EB14.002 EB14.003

Isothermal bag for diabetic's kit

Isothermal bag conceived to carry all the essential items for diabetes' treatment. Its structure, with two cases, makes it easier to store and locate the measuring instruments (glucometer, test strips, needles) as well as the insulin pens, which will be placed in the isothermal case.

Available in: EB14.001 Blue | EB14.002 Purple | EB14.003 Black

Features

- The front part has a pocket designed to hold diabetic diagnosis material namely glucometer, needles, test strips, etc.
- It has a back pocket designed to hold both the cold gel and the insulin applicators. A correct temperature is guaranteed even in summer.
- Inner flat pocket to place the gel.
- Finish touch of the structure.
- Inner white isothermal material
