Urbanite Backpack for home care

Ergonomic multifunction backpack. Its lightness and his resistance make it perfect for dairy work. Made in a water-repellent bicolour material very easy to clean, it is an innovative product that will allow scheduled visits in a comfortable way for the professional healthcare.

Features

- Ergonomic straps adaptable in height and width with attachment to the torso.
- Front pockets of different depth for personal objects.
- Main body divided into two spaces:
 - Three transparent pockets that allow the easy identification of their contents.
 - Three removable compartments (two transparent and one opaque) and padded isothermal ampullary with capacity for 33 ampoules.
- The compartments include a handle to facilitate the removal of the same.
- Padded rear compartment for documents or electronic devices.
- Non-slip and waterproof base.
- Made of water-repellent bitono.
