Elevating laboratories to the cloud

# Elevating Laboratories To The Cloud

VELP Ermes is a revolutionary web platform that will change and improve laboratory experience. A new generation of analytical instruments and a software platform with the power to improve laboratory workflows, accelerating science.

VELP Ermes creates a connected ecosystem of devices, people and data that transmit information between each other cutting down distances and expanding your scientific potential.

## BENEFIT OF THE VELP SMART LAB

- **Simple to Connect and Easy to Use**

Effortlessly connect your VELP instrument to Ermes Cloud Platform via secure Wi-Fi or cable. Create your account and start surfing the platform from PC, smartphone and tablet.

- **Always Connected, Always Informed**

Monitor and manage multiple instruments and consumables 24/7. Real time visualization of your analysis and of the instrument working conditions. Immediate notifications and alerts based on your settings via platform and email. VELP Ermes cloud platform permits you to stop your analysis remotely to safeguard your instrument.

- **Manage Your Data Safely**

VELP Ermes cloud platform protects your data with the highest safety standards granting you peace of mind by avoiding the risk to lose your results. VELP Ermes will allow you to easily generate and share reports of your analysis.

- **Your Instrument Always Updated**

Get software updates (OTA) immediately and benefit of all new features coming from VELP continuous product innovation.

- **Enhanced Service Support**

Faster and smarter Service Support thanks to the direct contact with VELP specialists. With VELP Ermes we can guide you to get the maximum from your instrument.
